Silver Spring, MD – Loosely based on the childhoods of series creators **Caitlin Moran** and **Caroline Moran**, the raunchy modern comedy series **Raised by Wolves, Series 1** makes its U.S. Premiere exclusively on **Acorn TV** on **Monday, June 20, 2016**. Starring **Rebekah Stanton** (*Jane Eyre, Doctor Who, Moving On*), **Alexa Davies** (*Detectorists*), **Helen Monks** (*Upstart Crow*), and **Philip Jackson** (*Agatha Christie's Poirot*), *Raised by Wolves* follows six socially isolated, home-schooled siblings and their acerbic single mother, Della Garry. Co-creator/writer **Caitlin Moran** is the award-winning author of the best-selling novel "How To Be a Woman." Available at **Acorn.TV** and on a variety of devices, **Acorn TV** is the premier streaming service for world-class television from Britain and beyond from **RLJ Entertainment** (NASDAQ: RLJE). A U.S. version of the series is in development from Oscar®-winner **Diablo Cody** (*Juno*).

Eldest sibling Germaine, 16, is idiosyncratic, distressingly overshary and deludedly in love with local yob Lee. Aretha, 15, an introverted, sarcastic George Orwell admirer, just wants to be left alone to endure her adolescence. Thirteen-year-old Yoko is a dreamy aspiring paleontologist with a heavy dose of 'the Force'. Along with 'the babbies', the family also share their small house with Della's feckless dad, Grampy, a frequent refugee. In her frenzied pursuit of Lee, Germaine drags her family reluctantly out into the world, going underage clubbing, dabbling in voyeurism, taking the law into their own hands and dealing with major life milestones in their characteristic highly inappropriate way. *Features strong language and adult humor.
